

## Toy Bank

During the Chinese New year time, SD team organized another event called “Toy Bank”. This event aimed to encourage staff to donate toys that are still playable but no longer in need. When kids get too big to play some old toys or kids get too many toys from their birthday party or uncles and aunties our event provided a very good chance to let the parents select some toys that could be donated to the people in need.

“This event does not only help clear up some toy baskets at my home, but it also provides a good chance to teach my 4 year-old son the concept of donation as well as learning to share.”, shared by a staff donating toys in this event.

This event successfully collected over 700 toys. With the help of HAESL volunteers, we managed to clean, wrap and pack the toys in 7 boxes and we have donated half to The Boys' & Girls' Clubs Association of Hong Kong (BGCA). The rest will be given away in the second half of the year.

For Your Information: SD team is trying to select programs that are value-added to HAESL in different aspects. For example, Toy Bank Event promotes recycling, volunteerism and youth education on the concept of supporting the people in need.
