

Hong Kong 24 Hour Charity Pedal Kart Grand Prix 2010

To support the local charity activities, HAESL joined the Hong Kong 24 hour Charity Pedal Kart Grand Prix which took place in the Victoria Park on 20-21 November. This time we entered three teams and indeed, it is our 12th year to participate in this charity event since 1998.

Well before the race, we have started the preparation work, such as kart designing, kart manufacturing, recruitment of pedallers and support team members, F1 training, snack and fruit charity sale and other fund raising activities.

Thanks to the great efforts of the pedallers and all the supporting staff, we obtained good results in the event. HAESL Rollers has done a total of 969 laps and at the 4th position which is just 1 minute 20 seconds behind the 3rd position. HAESL Fun pedallers pedaled 598 laps and won the Formula Fun Trophy (the fastest decorated kart). In addition, we have raised a total amount of HK\$93,491 for the event. The result is very encouraging and it also exceeds our fund raising target of HK\$75,000. We really appreciate all companies and staff who donated money to support us and to those who took part in the race as well. We would never make it a success without all of your support.

Acknowledgements:

Special thanks to Asia Pacific Catering Corporation Ltd., Quality Health Medical Services, Color Six Laboratories Ltd., Lyreco (Hong Kong) Company Ltd., HK Oxygen & Acetylene Co. Ltd. They sponsored us with charity food & meals, medicine, banner, drinks and oxygen respectively.
