

Asia/Pacific MRO Awards To HAESL And SIAEC

Oct 14, 2008

By Lee Ann Tegtmeier/AviationWeek.com

SINGAPORE--Hong Kong Aero Engine Services Ltd. (HAESL) and SIA Engineering Co. (SIAEC) received awards for MRO excellence from *Overhaul & Maintenance* Oct. 14. Neil Glenn (on the left), director and general manager of HAESL, accepted the 2008 Best Asia/Pacific Independent MRO Operation for the company's investment in new technologies and repairs, as well as the engine MRO's active role to lessen its environmental footprint--from decreasing electricity consumption to using a range of biodegradable packaging. William Tan, president and CEO of SIAEC, accepted the 2008 Best Asia/Pacific Airline MRO Operation award for his firm's contributions to Singapore Airline's successful introduction of the first A380 and subsequent fleet's high departure rate, as well as for SIA Engineering's international growth strategy, which includes 22 joint ventures.

S. Iswaran, senior minister of state for Singapore's Ministry of Trade and Industry, participated with *Overhaul & Maintenance* and AVIATION WEEK in presenting the awards at AVIATION WEEK's MRO Asia Conference, taking place here this week.
